

# Green Energy & Environment

Volume 8 Issue 1 February 2023

Jianji Wang, et al.,  
Ionic liquids-SBA-15 hybrid catalysts for highly efficient and solvent-free synthesis of diphenyl carbonate

## Research highlight

Endeavors on the development of efficient and sustainable supported metal catalysts for chemical synthesis on solid-liquid interfaces

## Review article

Catalytic conversion of lignocellulosic biomass into chemicals and fuels

## Short communication

Selective capture of  $\text{Ti}_2\text{O}$  from flue gas with formation of p-n junction on  $\text{V}_2\text{O}_5$ - $\text{WO}_3/\text{TiO}_2$  catalyst under working conditions
